EDUCATION

Software Development

Microverse

07/2022 - 07/2023

USA

Courses

- JavaScript
- Redux
- Ruby on Rails
- Git
- React
- Ruby
- RSpec
- Jest

Petroleum and Gas Engineering

University of Port Harcourt

08/2016 - 02/2023

Nigeria

Courses

- Energy Conservation
- Natural Gas Utilization
- Natural Gas Processing
- OffShore Engineering
- Catalysis
- Polymerization

WORK EXPERIENCE

Software Developer

Savasana AI

11/2023 - Present

Remote, USA

Achievements/Tasks

- Contributed to the Development of a Chrome Extension using Plasmio.
- Add Platform support for Web Extension

Full Stack Developer

Contra - Freelance

08/2023 - Present

Remote

Achievements/Tasks

- Led the end-to-end development lifecycle of multiple projects.

Full Stack Developer

Self Employed

01/2023 - Present

Remote

Achievements/Tasks

- Optimized Image Storing System for a Full Stack Application leading to a 57.6% decrease in API loading times.
- Developed and deployed a secure App for Financial Transactions

Gas Engineering Intern

Network Oil and Gas

05/2021 - 08/2021

Benin, Nigeria

Achievements/Tasks

- Actively contributed to the meticulous record-keeping and documentation of operational activities, logs, and safety reports.
- Played a pivotal role in the precision calibration of flow meters and various equipment, actively ensuring their accurate functionality.
- Gathered and recorded data related to the flow of hydrocarbons, such as flow rates, pressure measurements, and temperature readings.

SKILLS

JavaScript

TypeScript

PHP

React

VueJS

Laravel

Ruby on Rails

NodeJS

PostgreSQL

MongoDB

Redux

SASS

TailwindCSS

PROJECTS

Vibely Social Media App (12/2023 - 12/2023)

- Include features like Use Authentication, Image Storage. and In App Notifications
- Led to Development Life cycle of the Application
- Implement chat functionality through WebSocket integration.

Gran Sonrisa Car Rental App (11/2023 - 11/2023)

- Crafted a User-friendly interface for easy navigation
- Implement User Authentication, Image Upload and Storage
- Add Payment Integration using Paystack

Continental Financial App (07/2023 - 08/2023)

- Conceptualized, designed, and developed a state-of-the-art Financial App, providing users with a seamless platform for managing finances, investments, and transactions.
- Demonstrated expertise in programming languages, frameworks, and development tools to ensure the app's security, reliability, and high-performance functionality.

Sollyverse Travel App (01/2023 - 03/2023)

- Led the design, development, and successful deployment of a feature-rich travel application using Node.js, React, and MongoDB.
- Implemented real-time communication features using WebSocket technology, enabling instant updates on bookings and itinerary changes.

Go Buddy Task Tracker (08/2023 - 08/2023)

- Led to Development Life cycle of the Application
- Used Supabase as a Backend Service to store and retrieve data.
- Demonstrated skill in handling Application Reliability, Security and other Important Factors.
