WORK EXPERIENCE

Web Developer
Digital Factory
05/2024 - Present

Achievements/Tasks
- **Enhanced UI and implemented new features**, driving increased user engagement and overall user satisfaction.
- **Improved loading times by 24%** by implementing image optimization techniques as well as JavaScript thread management.
- **Streamlined asset delivery, optimized animations, and resolved site errors** , contributing to a 20% increase in website PageScans ratings.

Software Developer
Savasana AI
11/2023 - 02/2024   *Remote, USA*

Achievements/Tasks
- **Designed a Chrome extension using Plasmo,** improving chat support functionality for targeted platforms.
- **Developed and deployed backend as a Lambda function,** enhancing scalability and performance.
- Gave regular code reviews and delivered weekly code presentations.

Founder
Sollyverse
01/2023 - Present   *Remote*

Achievements/Tasks
- **Optimized file storage and retrieval systems** for a travel site, resulting in a 21% improvement in loading times and enhanced user experience.
- **Led the development and design of MVPs** for a cryptocurrency startup and a food ordering platform, delivering robust and scalable solutions.
- **Engineered a full-stack social media platform** integrating Amazon S3 for efficient image storage and designed a robust database architecture, ensuring scalability and high performance.

EDUCATION

Software Development
Microverse
07/2022 - 07/2023   *USA*

Courses
- JavaScript
- Redux
- React
- Ruby on Rails

Petroleum and Gas Engineering
University of Port Harcourt
08/2016 - 02/2023   *Nigeria*

Courses
- Energy Conservation
- Natural Gas Utilization and Processing
- OffShore Engineering
- Catalysis

SKILLS

JavaScript   TypeScript   PHP   React   VueJS
Laravel   Ruby on Rails   NodeJS   PostgreSQL
MongoDB   Redux   SASS   TailwindCSS

PROJECTS

Vibely Social Media App (12/2023 - 12/2023) ↗
- Implemented key features such as user authentication, image storage, and in-app notifications, which enhanced security and user engagement.
- Led the full development cycle, successfully delivering the application on time, ensuring a smooth and efficient process from start to finish.

Gran Sonrisa Car Rental App (11/2023 - 11/2023) ↗
- Designed a user-friendly interface that prioritizes intuitive navigation for a seamless user experience.
- Implement user authentication, image upload, and storage features, enhancing both security and user experience.

Continental Financial App (07/2023 - 08/2023) ↗
- Conceptualized, designed, and developed a cutting-edge financial application that offers users a seamless platform for managing finances, investments, and transactions with ease.
- Demonstrated proficiency in programming languages, frameworks, and development tools, ensuring the application's security, reliability, and high-performance functionality.

Sollyverse Travel App (01/2023 - 03/2023) ↗
- Led the design, development, and successful deployment of a feature-rich travel application, leveraging Node.js, React, and MongoDB to deliver a robust and scalable solution.
- Managed key features including user authentication, reservation booking, and reviews, ensuring a seamless and secure user experience throughout the application.

CERTIFICATES

Full Stack Software Development (07/2023 - Present)
Issued by Microverse

Ruby on Rails (06/2023 - Present)
Issued by Microverse

React/Redux (12/2022 - Present)
Issued by Microverse

JavaScript (10/2022 - Present)
Issued by Microverse
