EDUCATION

Software Development
Microverse
07/2022 - 07/2023   *USA*
Courses
- JavaScript
- Redux
- Ruby on Rails
- Git
- React
- Laravel
- RSpec
- Jest

Petroleum and Gas Engineering
University of Port Harcourt
08/2016 - 02/2023   *Nigeria*
Courses
- Energy Conservation
- Natural Gas Utilization
- Natural Gas Processing
- OffShore Engineering
- Catalysis
- Polymerization

WORK EXPERIENCE

Software Developer
Savasana AI
11/2023 - 02/2024   *Remote, USA*
Enhanced Chat Communication using Artificial Intelligence

Achievements/Tasks
- Designed a Chrome extension using Plasmo, expanding support to selected platforms for increased versatility.
- Implemented Lambda functions enhancing scalability.
- Conducted regular code reviews and gave weekly code presentations.

Full Stack Developer
Self Employed
01/2023 - Present   *Remote*
Achievements/Tasks
- Optimized Image Storing System for a Full Stack Application leading to a 57.6% decrease in API loading times.
- Designed and implemented a full-stack financial application, ensuring secure and efficient handling of deposits and transfers through adherence to industry standards.
- Engineered a full-stack social media platform incorporating S3 for image storage and implementing a robust database architecture.

Gas Engineering Intern
Network Oil and Gas
05/2021 - 08/2021   *Benin, Nigeria*
Achievements/Tasks
- Documentation of operational activities, logs, and safety reports.
- Played a pivotal role in the precision calibration of flow meters and various equipment, actively ensuring their accurate functionality.
- Gathered and recorded data related to the flow of hydrocarbons, such as flow rates, pressure measurements, and temperature readings.

SKILLS

JavaScript · TypeScript · PHP · React · VueJS · Laravel · Ruby on Rails · NodeJS · PostgreSQL · MongoDB · Redux · SASS · TailwindCSS

PROJECTS

Vibely Social Media App (12/2023 - 12/2023) ↗
- Include features like Use Authentication, Image Storage.and In App Notifications.
- Led to Development Life cycle of the Application.
- Implement chat functionality through WebSocket integration.

Gran Sonrisa Car Rental App (11/2023 - 11/2023) ↗
- Crafted a User-friendly interface for easy navigation
- Implement User Authentication, Image Upload and Storage
- Add Payment Integration using Paystack

Continental Financial App (07/2023 - 08/2023) ↗
- Conceptualized, designed, and developed a state-of-the-art Financial App, providing users with a seamless platform for managing finances, investments, and transactions.
- Demonstrated expertise in programming languages, frameworks, and development tools to ensure the app's security, reliability, and high-performance functionality.

Sollyverse Travel App (01/2023 - 03/2023) ↗
- Led the design, development, and successful deployment of a feature-rich travel application using Node.js, React, and MongoDB.
- Handled features like User Authentication and Reservation Booking.
- Enable Users like and leave reviews on visited Destinations.

Go Buddy Task Tracker (08/2023 - 08/2023) ↗
- Led to Development Life cycle of the Application.
- Implemented Supabase as a backend service for efficient data storage.
- Demonstrated skill in handling Application Reliability, Security and other Important Factors.

CERTIFICATES

Full Stack Software Development (07/2023 - Present)
Issued by Microverse

Ruby on Rails (06/2023 - Present)
Issued by Microverse
